Other Disclosures

- We are not affiliated with any other intermediaries, nor do receive any brokerage or commission from any third party.
- No penalties/directions have been issued by the SEBI under the SEBI Act or any other regulatory body on us. There are no pending material litigations or legal proceedings, findings of inspections or investigations for which action has been taken or initiated by any regulatory authority against us.
- We do not recommend any stockbroker or other intermediary to a client. Nor do we receive any consideration by way of remuneration or compensation or in any other form whatsoever from a stock broker or other intermediary.
- Investments in debt instruments are subject to reinvestment risks as interest rates prevailing on interest amount or maturity due dates may differ from the original coupon of the bond, which might result in the proceeds being invested at a lower rate.

- If client wants opinion in the specific positions made by him only, we will be able to suggest appropriate view on the securities. Such suggestion/view under any circumstances shall be considered as an opinion (not advice) from our side and we advise the client to consider our opinion and not consultancy to make his/her final decision. We are not liable for any losses whatsoever our client may incur in accepting this opinion.
- Prisha Wealth Management Private Limited, its directors, associates, and employees might have positions or might have recommended to clients which might be in-line with the recommendations made from time to time. Prisha Wealth Management Private Limited or directors or employees or their family members may or may not trade or may have investments in the same recommendations.
- The names of the products/nature of investments do not in any manner indicate their prospects or returns. The performance of the equity products may be adversely affected by the performance of individual companies, changes in the market place and industry specific and macro-economic factors.
- We focus on studying the business and the sustainability in mitigating risks in the sectors or companies. But the performance of the model advisory portfolio will depend upon the business performance of the portfolio entities and companies and its prospects.
- We assess the portfolio entities from varied valuation parameters in order to establish whether the valuations are reasonable while creating the model portfolio and reassess the same from time to time.
- While recommending clients to invest in equities and portfolio entities, liquidity constraints are potential near-term risk while investing and disinvesting the portfolio entities.
- We are reliant upon the performance of third-party service providers for our functions. Weak control over technology used in the third-party arrangement may result in threats to security and the integrity of systems and resources, which can have materially detrimental impact upon our operations. These issues could result in unauthorized transactions or the inability to transact business as expected. We do not have any association in any manner with any issuer of products/ securities. This also ensures that objectivity or independence in the carrying on of investment advisory services is not compromised.
- Investment in the market is subject to market risk. Read all the related documents carefully before investing. Though the best attempts are made to predict markets, but no surety of return or accuracy of any kind is guaranteed.
- The information on the website (www.prishawealth.com) is updated from time to time. Prisha Wealth Management Private Limited however excludes any warranties (whether expressed or implied), as to the quality, consistency, efficacy, completeness, performance, fitness, or any of the contents of the website.
- We maintain and operate effective organizational and administrative arrangements with the view of taking all reasonable steps to identify, continuously monitor and manage conflicts of interest. Some of the potential conflicts of interest situations are provided below. It is not intended to provide a comprehensive list of conflicts of interest or account of the processes and procedures which we adopt in connection with the management of conflicts of interest but is instead intended to be a statement of principles with which we seek to manage foreseeable conflicts of interest. We may identify additional conflicts of interest situations from time to time, which will be managed/mitigated with the help of the principles identified herein and by also taking into account further processes which we may develop over the period of time. The following are the potential conflicts of interest situations that may arise:
 - While providing services to the client, we may have, in addition to their responsibilities for the client, responsibilities for other companies, projects and clients. Accordingly, we may have conflicts of interests in allocating management time and other resources amongst our various activities and such other projects and clients.
 - We, while managing the funds of client/providing advice, may from time-to-time effect transactions in securities in which we may have a financial or other business interest.
 - We and/or our advisory clients may have existing similar or contra positions in the stocks recommended in the client's account and may execute their trades at different timeline based on their execution strategy which may not match with trade execution in the RIA.

- Our directors or employees may also serve as employees or partner(s) /director(s) of the other company. In such situations, the employee or partner is considered to be in a “dual hat” situation, which may result in conflicts of interest due to duties to differing entities.
- The attorneys, accountants, and other professionals, who perform services for us may, and in some cases do, also perform services for the relevant parties.
- Client is advised to read, understand, and agree of terms & conditions & disclaimer of service.
- We do not guarantee any profit/return.
- The performance of the investments/products may be affected by changes in Government policies, rules and regulations of Reserve Bank of India, Securities and Exchange Board of India, and any Government organization, general levels of interest rates and risks associated with trading volumes, liquidity and settlement systems in equity and debt markets.
- We do not provide any profit/loss sharing services, guaranteed profit services and demat services.

Risk Factors

The value of the investments and the expected returns may be affected generally by factors affecting financial and securities markets, such as price and volume, volatility in interest rates, currency exchange rates, changes in regulatory and administrative policies of the Government or any other appropriate authority (including tax laws) or other political, economic, and other developments as detailed below:

- **Portfolio Entities/ Companies Risk:** The performance of the model advisory portfolio will depend upon the business performance of the Portfolio Entities and Companies and its prospects. We focus on studying the business and the sustainability with focus on studying the balance sheet that help us in mitigating these sector or company risks.
- **Valuation Risk:** We will assess the Portfolio Entities from varied valuation parameters in order to establish whether the valuations are reasonable while creating the model portfolio and reassess the same from time to time.
- **Market Risk:** Investment Adviser endeavors to create a portfolio of Entities /Companies using bottom-up fundamental research rather than trying to time the markets. However, in order to mitigate Market Risk, we will monitor and analyse the market and economic circumstances from time to time that may affect the performance of the Portfolio Entities.
- **Liquidity Risk:** While investing in equities and Portfolio Entities, liquidity constraints are potential near-term risk while investing and disinvesting the Portfolio Entities. We endeavor to mitigate the risks by investing/ creating a portfolio with a medium to long term time horizon but no assurance is given.
- **Service Provider Risk:** Investment Adviser is reliant upon the performance of third-party service providers for their functions. Weak control over technology used in the third-party arrangement may result in threats to security and the integrity of systems and resources, which can have materially detrimental impact upon the operations of the Abakkus. These issues could result in unauthorized transactions or the inability to transact business as expected. The Investment Adviser endeavors to mitigate these risks by entering into the arrangement with regulated entities and/or incorporating indemnity clause in agreement entered with service providers.
- **Other Risks:** The Investment Advisory does not offer any assured / guaranteed returns.
